

Dear Sun Nuclear equipment user,

Further to the announcement from Sun Nuclear Corporation that they have been acquired by Mirion Technologies Inc, I wanted to reaffirm the statement from Sun Nuclear that there will be no changes to the Sun Nuclear brand name, team or the commitment to the Sun Nuclear equipment users and that this is inclusive of the distribution channels including the involvement of Xiel Ltd as the UK and Ireland exclusive distributor.

Sun Nuclear has successfully experienced a number of years of continuous growth and this latest move is demonstrative of their success in the global radiotherapy QA market. You can feel confident this is a positive change for Sun Nuclear that will ensure continued innovation and support for years to come.

Xiel will continue to operate in the capacity of exclusive distributor for all Sun Nuclear products in the UK and Ireland, and it will be business as usual, no changes. All of your usual Xiel contacts in the UK both from the sales and support side will remain as they are.

Xiel very much look forward to our continued partnership with all Sun Nuclear equipment users across the UK and Ireland.

Best regards,

Jack Knight
Managing Director

Exceptional products. Extraordinary service. Everyday.
